

March 26, 2020

To Our Customers and Vendors:

Please be advised that Dante Valve is an essential business and is considered part of the **Essential Critical Infrastructure** as defined by the U.S. Department of Homeland Security. <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>. We manufacture pressure relief valves for the U.S. military and other critical industrial applications.

As a **Critical Manufacturer**, and as a part of the **Defense Industrial Base**, our processes are vital to ensuring that certain Department of Defense operations remain undisrupted during this time. In accordance with Federal, State and local laws and with respect with Stay-at-Home orders, we will remain open in order to support the federal government and our local customers.

We are proud to be your business partners and will update you should conditions cause us to change our position. But for now, we will remain open for business.

Our normal working hours are Monday thru Friday, 5:30 AM to 4:20 PM and applies to all three (3) of our locations.

Regards,

A handwritten signature in blue ink that reads "Lisa D. Papini".
